

Company	Information Arts
Industry	Marketing information development
Position	IT Director
Relationship	Permanent and contract partner

30/10/2005

Techsearch has helped us with a number of projects over the last couple of years, their determination in not only matching the skill set and industry experience but also striving to find personality types that fit in with the group has proved invaluable to us.

I would recommend them to any organisation which is serious about recruiting the "right" individual.

IT Director
